

DGP40DL SERIES DIGITAL GAUGE W/DATA LOGGER

Description & Features:

- 4" Dial (100mm) 304 SS case digital gauge with 316 SS sensor and thread.
- Available with 1/4" or 1/2" NPT bottom connection standard.
Other thread sizes & types available upon request.
- Standard ranges from 0 to 15,000 psi.
- 0.25% accuracy for ranges above 15 psi, 0.5% accuracy for ranges ≤ 15 psi.
- USB connection for data download/output.
- Data Capacity: 260,000 pieces of data
- 5-year warranty.

**Refer to Merit Instruments warranty page for full warranty details.*

Specifications:

- Dial: 4" (100mm)
- Case: 304 stainless steel.
- Display: 5 digit LCD display with backlight (15 minute timer).
- Socket: 316 stainless steel.
- Accuracy: 0.25% accuracy for ranges above 15 psi, 0.5% accuracy for ranges ≤ 15 psi.
- Connection: 1/4" NPT or 1/2" NPT standard. Other sizes and thread types are available upon request.
- Output: USB connection.
- Data Capacity: 260,000 pieces of data.
- Battery: 3.6 Vdc.
- Overload Capacity: 150% of scale.
- Pressure Units: Standard psi, Bar, kPa, MPa, and kg/cm² switchable units.
- Operating Temperature: 14 F to 176 F, -10 C to 80 C
- IP Rating: IP65

Applications:

Merit's DGP40DL Series digital pressure gauge is designed for a wide variety of applications that require an easy-to-read digital display suitable for 316 SS thread and sensor that has a built-in data logger. This highly accurate and flexible pressure gauge easily replaces older analogue style gauges that can be difficult to read, and the standard 0.25% - 0.50% accuracy rating will be appreciated in applications where accuracy is critical for optimizing your process.

The data logger allows the user to quickly download gauge data through a USB cable and quickly saving this valuable data directly on your laptop. This is ideal for monitoring performance data of your system and operation. The Merit DGP40DL stores up to 260,000 pieces of data allowing quick and easy analysis of recorded data for a host of pressure applications.
